Business Analyst – Internship

Restaurant Magic Software is looking for several interns to fill Business Analyst positions. These internship positions will provide excellent insight into our overall business operations, the restaurant industry, and the mechanics of a software company. Each intern will be exposed to a variety of roles throughout the internship including, but not limited to: customer support, general problem solving, data manipulation, software configuration, and software assurance.

The skills and qualifications for the internship positions include:

- Currently enrolled in USF (prefer sophomore level and above)
- GPA of at least 3.0
- Excellent communication skills (written and verbal)
- Ability to quickly learn new software
- Exposure to Microsoft Office applications
- Database skills a plus
- Experience working in a restaurant a plus

Our internship positions are for six months and each intern will receive a letter of recommendation and/or documentation needed school credit. Interns typically earn Honorariums for excellent performance.

If interested, please send resume to: Marc Moskowitz at marc@rmagic.com.
