

AT UNIVERSITY OF  
SOUTH FLORIDA

### Organization

Students in Free Enterprise (SIFE) is an official 503(c) non-profit organization at USF. We are founded on the principles of free enterprise, serving members of the community through educational outreach projects that embody social, economic, environmental, personal, ethical, and sustainable change. In addition, SIFE at USF will provide the best opportunity for its members to develop leadership, teamwork and communication skills through learning, practicing, and teaching the principles of free enterprise.

### Objectives

Design a dynamic, yet easy to use website that would enable our visitors to engage in short quizzes on specific subject areas, who will then be rewarded for answering correctly. The website must be able to randomly pull questions from a question bank that will be populated from S.I.F.E. In addition, the website will allow users to register and provide them with a username and password. In addition, create a streamlined process for data (question bank) to be imported and removed at will.

To see a website that functions similar to the one we envision, please see

[www.freerice.org](http://www.freerice.org)

### Openings

We are looking for about 5 individuals to create a team with a diverse skill set.

### Experience

- 1 year related work experience in website design and database integration.
